And What Have You

By BOB CRAIG

You may have noticed by now that the city and school elections will be held on the same day this year rather than on a Tuesday and Saturday as in the past. This comes about by a change in the law during the last session of the legislature.

This change effects all cities that do not have "Home Rule" charters — which includes Hamlin. The change will effect all of the smaller cities in the state since a city must have 5,000 or more population to become a home rule city.

Apparently the change is being made to make it easier on the voters as they can vote in both elections on the same day. In the past it has been hard to get a large turnout two days in one week.

One of the big problems will be that we will not be voting on the same day as Abilene and several other cities in the area and this could lead to some confusion. It has already created a small problem here in that the same people have held both elections in the past and this time it will take two different crews.

As an aid to the HemisFair and to the general public the newspapers of Texas, through the Texas Press Association, are offering HemisFair Bonus Books during the month of March. The tickets are being handled by the papers free of charge as a public service.

It has been pointed out to us that anyone planning to attend the fair should take advantage of this offer for two reasons. The first is that you can save money and the second is you can avoid standing in line to purchase tickets.

This is supposed to be one of the things that HemisFair officials learned from the New York and Canadian fairs. At both of these fairs too much time was spent by the fairgoers standing in line waiting to buy tickets to each event.

The savings in money are also considerable in that a \$15.85 book sells for \$11, a \$9.85 book sells for \$7, a \$7.25 book sells for \$5, and a \$4.50 book sells for \$3.

But remember you have to purchase these tickets this month because all unsold books must be returned to the state office by April 1. And we would also suggest that you not wait until the last week to buy the tickets since we could run out and not have enough time to reorder.

While there are many things that will be free at the fair, there are also many things you will have to have a ticket for. Among the things that the tickets are good for include the Tower of the Americas, Mini-Monorail, Swiss Skyride, Lagoon Cruise, Fiesta Island Fun Rides, and others.

But remember that you have to purchase these books before April 1.

A trucking industry spokesman warns that improving weather and longer hours of daylight do not mean that drivers can start relaxing behind the wheel.

"With the amount of traffic there is today, a driver cannot afford to relax at any season of the year, even without the increase in the number of drivers that venture out in the Spring after a winter of avoiding all but essential driving," said Mr. Belton Duckett, President of the Texas Motor Transportation Association in connection with the Texas trucking industry's March Courtesy and Safety Campaign, "Spring Hazards."

Addressing himself to those drivers who bloom in the Spring, Mr. Duckett pointed out that the actions of one driver can have far-reaching effects on many others.

"If your purpose in driving is to enjoy the fresh air and sunshine," he went on, "I would like to suggest that you confine your activities to lightly-traveled roads where you will offer a minimum if interference to other drivers. On a main road, one driver loafing along can tie up long lines of fretting and fuming drivers who can't get by. Of course, the situation is at its worst on two-lane roads, but even on roads with four or more lanes, a driver who tries to stick under the speed limit can disrupt the orderly flow of traffic by forcing almost every other driver to go around him."

IN CLOSING SCENES OF JR. PLAY — Letha, left, played by Sandra Payne, watches her husband, the Count, played by Robert Bailey, embrace a long-sought-for friend's son, the Magnificent Marvelini, a suitable husband for their daughter, Digna, far right, played

Four Water Plant Employees Receive Work Proficiency Awards

An official State Health Department citation for work proficiency has been awarded to four Hamlin water plant operations specialists. The group includes Robert A. Cary, Willie E. Ails, Roy Lee Embrey and James D. Miller. The citation reflects the group's standing among state water officials.

Signed by the State Health Commissioner and authorities of the Texas Water and Sewage Works Association, the certificate of competency is awarded only to those utility plant operators who have successfully demonstrated their skill and knowledge in modern principles of plant management.

To qualify for certification, a plant operator must have accumulated a prescribed amount of actual work experience. He must also have attended both regional and statewide short schools at which the techniques of water treatment and waste water disposal are taught, and must have passed an examination given by State Health Department sanitary engineers. State law requires that at least one operator per shift be certified for competency

by health department engineers, but many operators seek certification on their own time and at their own expense to increase their efficiency as key public servants to their community and state.

The engineers said the attainment is evidence of the men's efforts to better prepare themselves for the duties of their profession.

Rains Delaying Winn's Building

"Rain, rain, go away!" would be a justifiable request right now. Rain every few days has not allowed the ground to dry thoroughly since the second week of this year.

Contractors for the rebuilding of Winn's Store would certainly appreciate some dry days. Tuesday they worked during sprinkles during the

morning but were halted when heavier rain started about 3 p.m. The official measurement was .27 inches, including rain until midnight Tuesday.

Mist intermittently Wednesday morning did not stop workmen who are cleaning brick at the former site of Irvine Hardware. At the Winn's location work on laying forms for the foundation was stopped.

Work at the high school building has not been hampered by the rain because the building has reached the point where inside work can be done during inclement weather.

Partitions for classrooms are nearing completion, says Supt. C. F. Cook. Workmen are completing the partitions in the north part of the building.

Terrazzo is being poured in the band hall, offices and cafeteria.

Mayor Hollis Madden announced this week that he would seek re-election. Officers of the Mayor and two Aldermen are up for election this year.

Deadline for filing was 5 p.m. Wednesday.

Absentee voting will begin Mar. 18.

Miss Cooper, daughter of Mr. and Mrs. Paul Cooper, is a Hamlin High School senior. She is a member of National Honor Society, Miss FHA, band majorette, FHA president, and captain of the Piperette basketball team.

Twenty-five young ladies from the Big County will take part in presenting fashions from Grissoms Department Store and Minters Department Store of Abilene. Musical entertainment will be included in the show.

Dress rehearsal will be held Wednesday night at the auditorium. The girls will be guests of the Lions Club at their luncheon at noon Mar. 14.

An Added Touch of Beauty

Robert Louis Stevenson said:

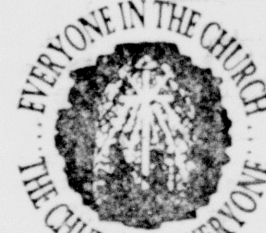

"The world is so full of
a number of things,
I'm sure we should all be
as happy as kings."

God's world is filled with loveliness, but we need
to add our own touch of beauty, so that we might
be builders of a better world with Him.
Each of us was given talents which would
enable us to contribute to the world and
mankind something great and lasting and
beneficial. May each of us use these
talents to the Glory of God.
Add a touch of beauty to your life
this week by attending church.

The Church is God's appointed agency in this world for spreading the knowledge of His love
for man and of His demand for man to respond to that love by loving his neighbor. Without
this grounding in the love of God, no government or society or way of life will long
persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even
from a selfish point of view, one should support the Church for the sake of the welfare
of himself and his family. Beyond that, however, every person should uphold and partici-
pate in the Church because it tells the truth about man's life, death and destiny, the
truth which alone will set him free to live as a child of God.

Only About Third Of Area's Cars Been Inspected

Patrolman Martin Kipp reported today that more than 50,000 vehicles still remain to be inspected in his area for the official 1968 inspection sticker before the April 15 deadline.

Patrolman Kipp's area includes Taylor, Jones and Fisher counties. This area has 81,424 registered vehicles and only 37% have been inspected.

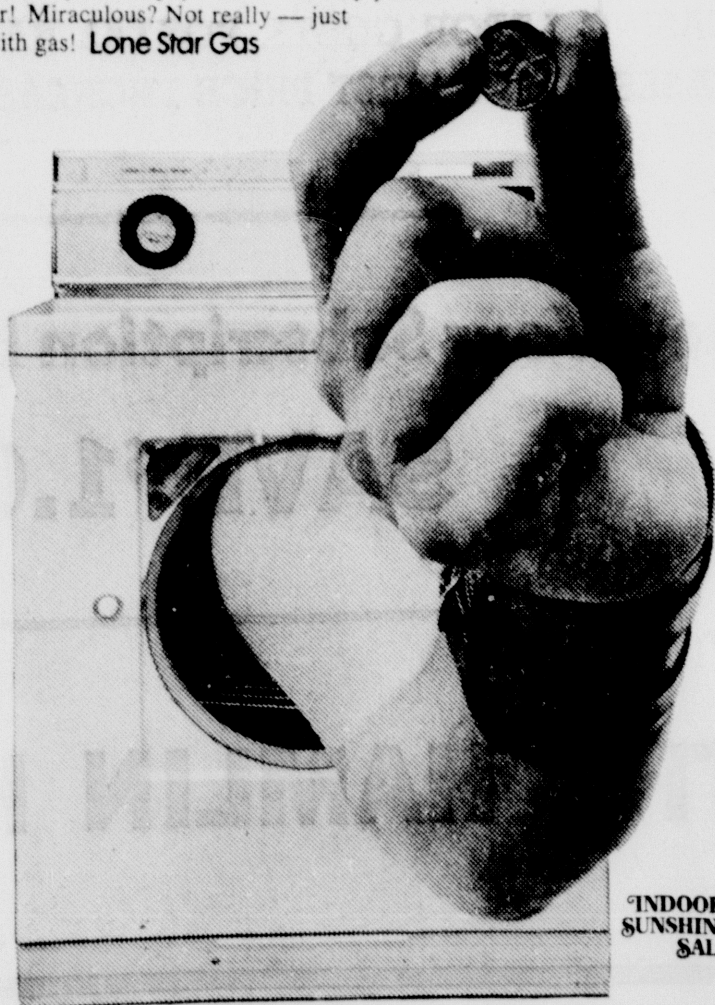

Patrolman Kipp reminded vehicle owners that under new provisions of the inspection law, the inspection will include front seat belts in cars where the anchorages are part of the manufacturer's original equipment. Also under the new provisions the steering, wheels and rims will be inspected.

Old Glory News...

by Judy White

Two students from Old Glory, Judy Sander and Rebecca Letz, entered the Texas Tech Speech Tournament in Lubbock last Friday. Judy Sander advanced into the finals in the Prose Reading competition. Rebecca Letz entered the Poetry Interpretation contest. Reva Letz also attended the tournament. All three girls are juniors in Old Glory High School. They were accompanied by Mrs. Cecil Klump.

It has been announced that Old Glory will have school on Friday, March 8. Earlier this year plans were made to dismiss school on this day to allow teachers to attend the District Teachers meeting; but since school had to be dismissed because of bad weather, officials decided to use this day to make up a day of instruction.

4-H NEWS

The Old Glory Community Junior 4-H Club met Wednesday, Feb. 28, after school. Douglas Vahlenkamp presided. Linda Neumann called the roll and read the minutes of the last meeting. Susan Baldree led the pledge, prayer and motto. Plans for the County 4-H Talent Show to be held April 1 at the Aspermont School Auditorium were discussed. Mr. Bill Williams is in charge of entries. Club leaders, Euna Jones and Reva Letz, served refreshments. Servers for the next meeting, which will be held Mar. 20, are Billie Jo Baitz, Susan Baldree and Rosa Barrera.

VARIETY CLUB

The Old Glory Variety Club met Tuesday, Feb. 27, in the home of Mrs. Lynn Flowers. After the devotional and business meeting, the ladies played games. Refreshments were served to six members.

Gary Moore, Mike Baldree and Marvin Vahlenkamp, students at Navarro Junior College in Corsicana, were here last weekend visiting their parents.

Other visitors in the Oren Baldree home last Sunday included St/sgt. Danny Baldree of Ft. Hood, Cecil Baldree and Mrs. M. R. Baldree of Abilene, Mr. and Mrs. Dickey Parker and children of Aspermont, and Clifford Gholson.

Clifford Gholson was home from Wichita Falls visiting his parents, Mr. and Mrs. Cliff Gholson.

Visitors in the homes of Mr. and Mrs. Lynn Flowers and Mr. and Mrs. Ben Klump last Saturday were the four Woodson sisters, Mrs. Dixie Kim-mell of Snyder, Mrs. Norma Hickman of Aspermont, Mrs. Paralee Clendenen of San Antonio and Mrs. Inez New of Odessa. They are former residents of the Old Glory community.

Mr. and Mrs. James Martin and sons spent last weekend in Albany.

Mr. and Mrs. Ted Jennings and children from Shattuck, Okla., were here last weekend visiting their parents, Mr. and Mrs. Buster Tredemeyer and Mr. and Mrs. T. W. Jennings. Mrs. Jennings and the children will remain here while he attends a special

school in connection with his work.

Mr. and Mrs. Lynn Flowers spent Wednesday of last week in San Angelo where they visited Mrs. Flowers' sister and her husband, Mr. and Mrs. J. C. King.

Jana and Julia Garner spent last weekend here with their grandparents, Mr. and Mrs. Morris Garner, while their parents, Mr. and Mrs. Loy Garner attended the Class A Regional Basketball games in Lubbock.

Mr. and Mrs. Marvin Letz and Freddy of Haskell visited his parents, Mr. and Mrs. Herman Letz, last Sunday.

Janis Houseworth, student at San Angelo College, spent last weekend here with her parents, Mr. and Mrs. Les Houseworth.

Randy Wilkes, son of Mr. and Mrs. Les Houseworth, fell and broke an arm while at school last week. He is a patient in Room M-302 in the Children's Ward at Hendrick Memorial Hospital in Abilene.

Cotton Pickin's

By ROLLING PLAINS COTTON GROWERS, INC.

STAMFORD — Producers have only two more weeks from this Friday to sign up in the 1968 cotton program, reminds Charles G. Bragg, executive vice-president of the Rolling Plains Cotton Growers, Inc.

On a belt-wide basis, cotton producers have signed up to withhold about 25 percent of their allotted acreage from production this year, he said.

"Should this average hold through March 15 sign-up deadline, the United States' potential production could drop well below the 13.5 million bales considered by United States Department of Agriculture officials and the cotton industry as adequate to meet world-wide consumer goals," Bragg stated.

"Below average production for both the 1966 and 1967 crop years has eliminated our cotton surplus."

On January 1 this year U. S. government stocks of Upland cotton had been reduced to about 1,124,000 bales, compared to 8,257,000 on the same date in 1967. Since Aug. 1, 1967 Commodity Credit Corp. had sold 4,747,000 bales of Upland cotton for an average of 24.95 cents per pound basis middling one-inch average location, with mike readings of 3.5 - 4.9. Total government stock of cotton on Feb. 1, 1968 was down to 1,650,000 bales.

"USDA officials are reported to be 'unworried' over the possibility that producers sign-up to withhold more acreage from production than is necessary to produce the bare minimum to meet the world demands. But cotton experts in some quarters think it is quite possible that producers could sign up to withhold too much acreage. This could, they point out, further reduce our prospects of producing enough to supply world

needs in 1968-69.

"This is especially true," Bragg continued, if the U. S. is to recapture its 'fair historical share' of markets abroad, generally considered to

be about 7 million bales. Exports in 1966-67, however, dwindled to only 2.7 million bales, as a result of too much emphasis on acreage diversion and idling cotton land and not enough on increasing cotton exports. Too often, other departments of the government have dictated our cotton export program.

We would like to see more emphasis placed on exports in 1968-69.

Neinda Philosopher Says the Problem's Not Credibility or Generation Gap But the Cash Gap

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route One reports on a new gap this week. Dear editor:

A man asked me the other day, "Say, don't you ever buy a newspaper? How come you're always depending on one to turn up on your farm free of charge?"

I will answer him in a minute.

According to a newspaper I found out here yesterday blown against my front gate and which I pulled off just before the extra wind resistance it was causing toppled the thing — I'd fix the gate but it would be just wasted effort, a section of the fence itself is down and won't turn cattle anyway, they'd just go around, cows are like guerrilla fighters, they won't attack where they're supposed to — anyway, according to this paper the latest problem this country's got is the Generation Gap. It went into great detail explaining how people under 30 can't understand people over 30, or maybe it's the other way around, and this explains some of the unbarbed goings-on, sign-carrying shenanigans, etc. Maybe so, although it's possible the trouble with some of the youngsters is they not only don't understand the older generation, they don't understand themselves or what's going on in the world either and never will, regardless of what age bracket they're in.

But what got me interested was that this is a new Gap. Prior to that we had the Missile Gap, and I don't know whether we solved it, or didn't have it, or still have it. All I know is you don't hear much about it any more, one way or the other.

HAD COMPANY? That's news . . . Call the Herald.

Then after that we had the Credibility Gap. They said the politicians were saying one thing and meaning another, or vice versa, or they were holding back and covering up, but I couldn't get excited about that. That system started thousands of years ago, and any man who hasn't learned to read between the lines in print and listen between the sentences in speeches, ought to back up and start over again.

Actually, the only gap that really bothers most towns, cities, nations and individuals, including me, is the Money Gap.

Me and Washington never seem to have the money we

need to do what we'd like to, and it's been that way all our lives.

I guess this answers that man's question.
Yours faithfully,
J. A.

spending in 1969 after automatic deductions of money for earmarked purposes.

GOVERNORS ASKED FOR ADVICE — State Constitutional Revision Commission panel has voted to call on Gov. John Connally and ex-Govs. Price Daniel and Allan Shivers for advice on best standards for deciding how to change the governor's powers and length of term.

Executive office committee debated at length whether the governor should be limited to one or two four-year terms and whether Texas should adopt a "cabinet form" of state government with strong governor provisions.

COURTS SPEAK — State Supreme Court and Third Court of Civil Appeals in two recent decisions concluded that a former State Savings and Loan Commissioner should have granted authority for loan-savings concerns in downtown Houston and Richardson. Applications had been denied by the Commissioner.

Court of Criminal Appeals upheld a Harrison County jury verdict of life imprisonment for a man convicted of drowning his wife.

Same Court affirmed a 20-year sentence of a San Angelo man for the slaying of a cab driver in 1966.

CRIME ON RAMPAGE — Texas Department of Public Safety reports that Texas crime increased 11.8 per cent in 1967 over the previous year, for a new all-time high number of criminal offenses — one every minute and a half.

An estimated 332,986 major crimes were committed in Texas during 1967, compared to 297,810 offenses the year before, said DPS Director Homer Garrison Jr.

All major categories of crime — murder, rape, robbery, burglary, aggravated assault and theft — were up 10 per cent or more. Only 27 per cent of known offenses were solved by arrests during the year.

APPOINTMENTS — Attorney General Martin has named former State Rep. Pat Cain of Austin to head his anti-trust and consumer protection division. Division handles anti-trust matters as well as enforcement of the new

state consumer credit code. O. N. (Newt) Humphreys, Austin, moved up to acting administrator of the State Liquor Control Board after the Board accepted the resignation of veteran Administrator Coke Stevenson Jr.

W. A. (Dub) Cowan, formerly of Coryell County, succeeds Humphreys as agent-in-charge of the Department of Public Safety, intelligence section. Maurice Beckham of Hallsburg took over Cowan's old job as assistant agent-in-charge.

Garner E. Jones, Wylie, has been designated senior planning engineer in the hearing and planning section of the Texas Water Quality Board's central operations division.

John E. Gray, Beaumont bank president, will serve as state chairman of the 1968 National Library Week Committee.

Earl J. Cantrell, formerly of Dalhart, head Texas State Teachers Association's new division of research and data processing.

PARK SITE SELECTED — State Building Commission has picked the site for the long-delayed museum building at Washington-on-the-Brazos State Park in Washington County.

Museum building will be of five-point star configuration. Legislature appropriated \$500,000 to build it, matched by \$200,000 in private contributions. Rep. Gus Mutscher of Brenham indicated an additional request for \$150,000 to \$200,000 may be made to the legislature next year.

Park is located where the Texas Declaration of Independence was signed on March 2, 1835.

SHORT SNORTS — Agriculture Commissioner John C. White warned Texas dairymen to proceed with caution when considering mandatory laws regulating prices of milk, saying "Price stabilization laws can be harmful if they are hastily written and poorly administered."

Texas Industrial Commission reports that seven new industries have located in West Texas since the first of the year — three in Abilene, three in Odessa-Midland and one in Fort Stockton.

Texas Aeronautics Commission will hold a hearing March 12 on application of Charles E. King of Wichita Falls for a permit to provide airline passenger service between Wichita Falls and Dallas.
